

## PetPoint Report: June 2013

The PetPoint Report is a monthly gauge of U.S. pet owner demand for cats and dogs available for adoption. Data is aggregated via the PetPoint Animal Management Software, a cloud-based application developed and launched in 2005. PetPoint is the most widely used animal management application in North American animal welfare.

The June PetPoint Report aggregates data from 1,113 animal welfare organizations ("AWOs") in the United States and compares it to data from 2012. For the purposes here, AWOs are defined as animal control agencies, SPCAs, humane societies and rescue groups. Only data from AWOs operating PetPoint during both June 2012 and June 2013 have been included.

The report includes data on 182,234 cats and dogs that entered AWOs during the month (referred to as Intakes) and 170,629 cats and dogs that left AWOs over the same period (referred to as Outcomes). Only data for cats and dogs is reported here. AWOs from 48 states (excluding Delaware and North Dakota), Washington D.C. and the U.S. Virgin Islands are represented in this report.
