

## PetPoint Report: July 2021

The PetPoint Report is a monthly gauge of U.S. pet owner demand for cats and dogs available for adoption. Data is aggregated via the PetPoint Animal Management Software, a cloud-based application developed and launched in 2005. PetPoint is the most widely used animal management application in North American animal welfare.

The July PetPoint Report aggregates data from 1132 animal welfare organizations (“AWOs”) in the United States and compares it to data from the same month in 2020. For the purposes here, AWOs are defined as animal control agencies, SPCAs, humane societies and rescue groups. Only data from AWOs operating PetPoint during both July 2020 and July 2021 have been included.

The report includes data on 142,432 cats and dogs that entered AWOs during the month (referred to as Intakes) and 144,439 cats and dogs that left AWOs over the same period (referred to as Outcomes). Only data for cats and dogs is reported here. AWOs from 49 states, as well as Washington D.C. and the U.S. Virgin Islands are represented in this report; AWOs from North Dakota are excluded.
